### Classical Thai Massage

60 minutes  
600 baht

An ancient traditional art; this method of massage was formerly administered only in temple - 'wat' - grounds by masters with healing abilities. By exerting pressure on specific points of the body and by manipulating muscles and ligaments, the spine is elongated and relieved of tension. The sense of wellbeing as energy and flexibility are brought back into your body is extraordinary.

### Herbal Oil Massage

60 minutes  
600 baht

Our herbal oil massage -- using various blends of spice, citrus, aromatic, warm-up and citronella oils -- is a combination of a classical Thai and an oil massage. This type of massage is a soft and smooth way of feeling on top of the world again. We especially suggest this for those with little experience of Thai massage.

### Facial Massage

60 minutes  
600 baht

The traditional way of purifying and nourishing your face using natural products, such as our herbal cream cleaner, and honey from the North of Thailand -- as well as root masks and soft pressure point massage. This relaxing facial treatment will make your skin silky smooth, giving you a fresh and healthy feeling. Our Facial Massage is popular with both men and women.

### Foot Massage

60 minutes  
600 baht

A treat for one of the body's most important parts. After the pressure point massage, herbal foot masque and herbal oil treatment, you will be back to full speed again.
